AGENDA

WORKSHOPS

Workshop A (Main Room)

Engaging Youth as Leaders in Preventing Dating Violence [*presented by: Shael Norris + Youth, SafeBae*]

Learning Objectives:

1. Identify ways to integrate healthy relationship/dating violence prevention programming in and outside of health class.
2. Understand benefits of youth-led school-based sexual violence prevention programs.
3. Gain insights into ways to identify and support youth as leaders of culture change in school environments.

Workshop B (Breakout Room)

Addressing Adulthood: Recognizing unconscious perceptions of young people, to better navigate communication and care.

[*presented by: Faith Bessette, Sojourner House*]

Learning Objectives:

1. Understand the ways in which young people are a high control group
2. Identify unconscious ageism in their perception of young people
3. Use the information to continue developing a dynamic approach to this work

Workshop C (Breakout Room)

Clinical Update: Sexually Transmitted Infections

[*presented by: Michaela Maynard, Open Door Health*]

Learning Objectives:

1. Outline the most recent updates to the diagnosis and treatment for common STIs
2. Explain the concept of Doxycycline Post-Exposure Prophylaxis and its intended use in reducing the risk of bacterial STIs after sexual exposure.
3. Summarize current developments in HIV prevention, including Pre-Exposure Prophylaxis
